

Optometric Technician

We are looking for a full-time, dedicated Optometric Technician to assist the Optometrists with the vision correction of patients. The Optometric Technician will help with eye examinations, testing, perform clerical duties, and maintain and clean the examination equipment.

To be a successful Optometric Technician, you should possess strong communication and interpersonal skills. You should be detail oriented and meticulous, with a keen interest in repairing and maintaining glasses and ocular equipment.

Optometric Technician Responsibilities:

- Assisting with patient care and eye examinations.
- Taking patient histories.
- Explaining the testing process to patients, preparing them, and administering tests on visual capabilities.
- Keeping records and inventory, and taking notes during examinations.
- Assisting patients in inserting/removing contact lenses, and instructing contact lens care.
